ABSTRACT

A questionnaire was administered to 1978 recipients at North Carolina State University regarding their post-graduation plans. Those who did not respond to the spring survey and those who responded but reported unemployment were mailed a followup questionnaire. The following information is presented: post-graduation statistics for bachelor's degree recipients by school, department, race, sex, and grade-point average; post-graduation statistics on master's degree recipients by school, race and sex, and for doctoral degree recipients by race and sex; mean salaries of bachelor's degree recipients employed by department, school, sex, race, and grade-point average; and use of counseling and placement services in seeking employment for bachelor's degree recipients by school and total. The questionnaire is appended. (SW)

November, 1978

Survey of Spring 1978 Degree Recipients at
North Carolina State University

During the period of late April-early May of 1978, all prospective spring degree recipients were asked to complete a questionnaire regarding their post-graduation plans. In October of 1978, those who did not respond to the spring survey and those who responded but reported unemployment were mailed a follow-up questionnaire. This report is a summary of the two-part survey and reflects post-graduation status of spring 1978 degree recipients as of late November 1978. See Appendix A for a copy of the questionnaire.

The following information is provided in the report:

1. Post-graduation statistics for bachelor's degree recipients by school, department, race, sex, and grade-point-average.
2. Post-graduation statistics on master's degree recipients by school, race, and sex; and statistics for doctoral degree recipients by race and sex.
3. Mean salaries of bachelor's degree recipients employed by department, school, sex, race, and grade-point-average category.
4. Percentage of bachelor's degree recipients employed by department, school, sex, race, and grade-point average category.
5. Use of counseling and placement services in seeking employment for bachelor's degree recipients by school and total.

The response rates for the spring 1978 survey were up from last year. Rates were 67% for bachelors, 66% for masters, and 61% for doctorates, as compared to 61%, 53%, and 56% respectively, in 1977.

Study Highlights

1. Of the 67% of bachelor's degree recipients responding to the survey, 60% reported employment; 23%, further studies; and 17%, unemployment. Analogous figures for the 1977 graduates were 66%, 28%, and 6%, respectively.
2. Sixty per cent of those bachelor's degree recipients employed accepted jobs in North Carolina, as compared to 61% for the spring 1977 bachelor's degree recipients.

3. The average annual salary for bachelor's degree recipients was $13,334; for master's degree recipients the average was $16,176, and for doctorates, $19,695. These average salaries compare to $11,884, $14,711, and $17,511, respectively, for 1977.
4. For those bachelor's degree recipients accepting employment, 5% reported "no college degree required and no relationship between job and academic program"; 58% reported "college degree in my field strongly related and/or necessary to job".
5. Ten percent of those bachelor's degree recipients planning further studies indicated that difficulty encountered in finding employment influenced their decision to continue their educations.
6. Twenty-one per cent of the employed bachelor's degree recipients responded that, if just starting their college education, they would pursue degrees in curricula other than those in which they received degrees.
7. For all bachelor's degree recipients, there was a $2,949 difference in average salary between men and women, with the former group having the higher salaries. The comparison of average salaries by GPA reveals that students in the highest GPA bracket (3.50 and above) received $1,614 more per year than those in the lowest bracket (2.50 and below).
8. Employment rate by sex was 63% for males and 49% for females. Percentage employment for blacks (57%) was somewhat lower than for whites (60%).
9. Of the master's degree recipients, 64% were employed, 21% reported further studies, and 15% were not employed, as opposed to 75%, 15%, and 10% respectively last year.
10. Eighty-eight per cent of those receiving doctorates were employed, as compared to 94% last year.
11. Bachelor's degree recipients in the School of Engineering (81%) were most likely to have used the Career Planning and Placement Office for job interviews and referral while those from the School of Textiles were the least likely (5%) to use this service.

A Note on the Following Tables

For bachelor's degree recipients, "double majors" present a slight computational problem which might lead to some confusion with regard to the additivity of department totals to school totals and school totals to University totals. In the tables which follow, these graduates who received two degrees within the same school are included in both of their departments but are included only once in the school totals. Similarly, those graduates who received degrees in two different schools are included in both of their departments, and in both of their schools, but only once in the University totals.

Also worthy of mention is the fact that "cell" percentages in the tables are based on responses to pertinent questions. In one department, for example, five graduates reported employment; however, only three of these reported the geographical area of their employment. Since one of those three stated that he was employed in North Carolina, the percentage shown for "% in N.C." is 33%. All cell percentages follow this same pattern.

Finally, it should be pointed out that the parenthetical number beside each salary figure represents the number of salaries reported. In those cases where only one salary was reported, it is not included in the department figures, but is included in the school and University totals. The salary figures throughout include only those reported for employment within the United States.

APPENDIX A

Office of Student Affairs Research

SURVEY OF DEGREE RECIPIENTS AT NCSU

As a student who will soon receive a degree from NCSU, you are asked to complete this questionnaire concerning your post-graduation plans and prospects. Information such as this is essential feedback for your department and the University as a whole. Equally important is the knowledge you will help provide your underclassmen and future students with regard to their expectations for post-graduation opportunities in your field of study. For these most important reasons, we encourage you to take the time to complete this survey carefully *and return it promptly to your major department*.

Name: _____ (Last) _____ (Initials) Date: ____ (Month) / ____ (Day) / ____ (Year)

(1) ___ - ___ - ____ Your Social Security Number

(9) ___ Age Your Major Department(s) _____

(11) ___ Sex (M = Male or F = Female)

(12) ___ Curriculum Code (If you are a "double major," enter second curriculum ___)

(15) ___ Degree (B = Bachelor's, M = Master's, D = Doctorate)

(16) ___ Choose one answer from the following list and place the number of your response in the space to the left; then follow the instructions immediately after the answer you select.

1. I have accepted full-time employment. *(Go to PART A below)*
2. I am planning further full-time studies. *(Go to PART B on back)*
3. I have not accepted full-time employment, and I am not planning further full-time studies. *(Go to PART C on back)*

PART A

(17) ___ Which of the following describes the location of your employment?

1. North Carolina
2. A state other than North Carolina
3. A country other than the United States

(18) ___ If your answer to the question immediately above was "2", then give the two-letter abbreviation for that state. If your answer above was "1" or "3", leave the spaces to the left of this question blank.

(20) ___ With what kind of organization have you accepted employment?

1. Self-employed
2. A company or corporation
3. A governmental agency
4. A secondary (K-12) education system
5. A post-secondary education system
6. The military

(Employing Organization Name and Address:)

_____
_____
_____
_____
_____

(21) ___ If your answer to the question immediately above was "4" or "5", will you be a teacher?

1. Yes
2. No

$(22) ___, ___ ___ is the annual salary I have accepted for this position.

My job title for this position is _____

(27) ___ What, to the best of your knowledge, is the relationship of your academic program to the job you have accepted?

1. No college degree required, and no relationship between job and academic program.
2. No college degree required, but job is related to my academic program.
3. College degree required, but no relationship between job and academic program.
4. College degree required, and some knowledge of my academic field necessary.
5. College degree in my field strongly related and/or necessary to job.

Please go to Part D on back.

Answer this section only if you plan to continue your studies on a full-time basis.

Name of school I will attend: _____ My field of study will be: _____

___ Did your decision to continue your studies result from difficulty finding a job?
(28) 1. Yes
2. No

___ What degree will you be seeking?
(29) 1. Master's
2. Doctorate (EdD, PhD)
3. Professional Degree (Law, Medicine, Dentistry, etc., specify: _____)
4. Other degree (specify: _____)
5. No degree

___ Have you been awarded a scholarship, fellowship, or grant to continue your studies?
(30) 1. Yes
2. No

Please go to Part D below.

PART C

___ Which of the following best describes your employment efforts?
(31) 1. Have been actively seeking full-time employment.
2. Have not begun seeking full-time employment, but plan to do so later.
3. Have not begun seeking full-time employment, and do not plan to in near future.

___ If you have been unable to obtain full-time employment, why do you believe this is the case?
(32) *(Choose the single best answer)*
1. The job market in my field is flooded with applicants.
2. My grades are not good enough to beat out the competition.
3. I have restricted myself to a particular geographic area.
4. I do not have the actual job experience which employers desire.
5. The salaries I have been offered are too low.
6. Other: _____

Please go to Part D below.

PART D

___ If you were just starting your college education, would you pursue a degree in a field
(33) different from that in which you will soon receive a degree?
1. Yes
2. No

___ If you answered "Yes" to the above question, why would you do so?
(34) 1. Because of difficulties in finding a job.
2. Because my interests have changed.
3. Because other fields pay more money.
4. Because other fields have more growth potential.
5. Other: _____

Did you use the Career Planning and Placement Center in Dabney Hall . . .
. . . for job interviews or referral? *(1 = Yes, 2 = No)*
(35)
. . . for career planning? *(1= Yes, 2= No)*
(36)
. . . for information on employers? *(1= Yes, 2= No)*
(37)

In seeking employment, did you use the services of . . .
. . . other on-campus placement services (Textiles, Ag. and Life Sciences, etc.)? *(1= yes, 2= No)*
(38)
. . . academic departments? *(1= Yes, 2= No)*
(39)
. . . off-campus employment agencies? *(1= Yes, 2= No)*
(40)
. . . other agencies, specify _____
(41)

___ If you are unemployed, do you wish to be referred by the Career Planning and Placement
(42) Center to job opportunities after your graduation?
1. Yes (If so, you should contact the Center and complete a "Personal Data Sheet" or a resume form.)
2. No

If you have any comments, suggestions, or criticisms concerning the operation or staff of the Career Planning and Placement Center or other on-campus placement services, please attach.
